Hello,

My name is James R Booker, the Executive Director for Life Choices Medical Clinic & Care. I wanted to take a moment to reach out personally to you as a community leader to make you aware of our organization that has been serving communities since 1996 and to humbly ask for your prayerful consideration of supporting our clinic, our mission, and our growing efforts not only in Bexar County but across Texas and beyond. Your support would mean more than I could ever express in words alone and would help make a major difference in the communities we are touching by God's grace.

Donor support allows us to provide our current services monthly and to go outside of our four walls into the underserved communities that need our services most. With wonderful supporters like you and the Lord's help we have and are working to establish satellite clinic opportunities directly in local communities. We have also partnered with other Pregnancy Care Centers in Texas to enhance their capabilities through our being the only center in the area offering full family medicine starting at age 12 years old and older.

I thank you for your time and prayerful consideration of support to help us take the love of Jesus Christ and the many gifts of service we have been blessed with to the communities that need us, what we do and more importantly Him!!!

You can visit our website at www.lifechoices-sa.com for more information and details. Should you have any questions, would like to visit the clinic and meet the staff, or simply meet briefly to learn more about what we're doing, feel free to call me at the number below or email me at james@lifechoices-sa.com.

Thank you again for your time and your heart for giving. Have a safe and blessed day!!!

James R Booker
